Nebraska Petition in Support of Finalizing the Competition Rule Proposed by GIPSA

(the USDA's Grain Inspection, Packers and Stockyards Administration)

We, the undersigned farmers, ranchers, and consumers of Nebraska, believe livestock markets should be open, competitive, and free from manipulation and abuse.

Only with open and competitive markets will independent livestock producers have the opportunity to thrive so they can continue supporting Nebraska's rural economy.

The proposed GIPSA rule will halt some of the abusive practices by monopolistic meatpackers that are reducing, if not eliminating, opportunities for Nebraska's independent livestock producers.
